

BRING ANWAR'S CHILDREN HOME! NATIONAL DEMO

FOR 4½ years Anwar Ditta, a Birmingham born Asian woman, has been struggling against the racist immigration laws to be reunited with her 3 children- Saima 6, Imran 7, Kamran 9. For 4½ years Anwar and her husband Shuja have been denied the basic democratic right to have a normal family life!

Anwar first applied for her 3 children in October 1976 under the Labour Government and was refused! Anwar's appeal was heard in July 1980 under the Tory Government and it was rejected! Not based on any discrepancies in Anwar's evidence, but simply on a racist character assassination by the Home Office! On 16th September the leave to appeal to the Tribunal was refused!

Immigration controls have always been racist. In the post war boom black workers were recruited to fulfill dirty jobs for the meanest wages. Now as the recession bites hard, black people are the first to be attacked. Ever tightening Immigration controls mean families split up and endless deportations! The police and courts are used to attack and harass black people organising and fighting back!

Southall, Bristol, Brick Lane have shown that black people won't be intimidated! Black people are organising and fighting back against racism!

In Rochdale Anwar Ditta won't be intimidated by the Home Office. She is continuing the campaign! It's a fight not just for her family but for all black people fighting Immigration Controls!

In order to bring Anwar's children home the campaign must intensify! The campaign must get bigger and more resolute! The only way that Anwar and her family will win, and be victorious in their heroic struggle to "Bring their Children Home", and make the Home Office concede defeat, is by building a genuine anti-racist Movement!
