BRING ANWAR'S CHILDREN HOME!

The racist British Home Office has again refused Anwar Ditta's three children permission to come home from Pakistan. On July 30th the adjudicator at Manchester Immigration Court threw aside all evidence and rejected Anwar's appeal on behalf of her children. For 4½ years Anwar Ditta and her family have suffered the racist oppression of the British state and its immigration controls. The British state has forcibly separated parents and children and is trying to break up the family in the most brutal and vicious way.

THE FIGHT WILL CONTINUE!

The Anwar Ditta Defence Committee rejects the Home Office decision. The struggle will continue! The latest decision has shown that no justice or democracy can be expected from the Home Office and the British state. Only a powerful and resolute fight against the racist state, its immigration controls and the Home Office can win the fight to reunite Anwar Ditta's family. The Anwar Ditta Defence Committee will continue its campaign until the Home Office is forced to allow Anwar's children Home.

ANWAR DITTA'S STRUGGLE - AN ANTI-RACIST STRUGGLE!

The racist attack on Anwar's family is not an isolated attack. It is one part of a massive attack that the British state is carrying out against black people in Britain. Through its immigration controls, its police, its courts and prisons, the British state is attempting to destroy black resistance to racist imperialist oppression. The decision against Anwar is one part of this attempt. In London police and immigration officials carried out passport raids against black workers at Main Gas factory, Bestways Supermarket and the Hilton Hotel. In Rochdale Said Bibi, an 80 year old widow was deported before her appeal hearing! In London Juno Varki was deported. In Rochdale Nasreen Akhtar and many other black people are threatened with deportation or have had their families split up by the immigration controls.

Anwar Ditta's struggle and the struggle of the Anwar Ditta Defence Committee is a struggle not only to reunite Anwar's family but a struggle against the racist state itself. It is a struggle against all immigration controls. A victory for Anwar Ditta will be a victory for all black people. It will be a victory for all who stand against the racist British state. A movement in support of Anwar Ditta will also be a movement in support of anyone under attack from the immigration controls and the racist state.

SUPPORT THE DEMONSTRATION! SUPPORT THE CAMPAIGN!

The Defence Committee cannot win its struggle without your support. Come to the demonstration and show your support for Anwar Ditta and all those fighting against immigration controls.
