Anti-  
Apartheid  
Movement

89 Charlotte Street, London W1PD 2DQ Tel 01 580 5311

• Over 20 million people in South Africa are denied all basic human rights — as a result of British policies! They form over 80% of the population, in a country which is one of the richest in the world. But, under the South African system of "apartheid", they provide a virtual slave labour force for the white minority regime.

This cruel system of racial subjugation was established under British rule in South Africa. And today, "apartheid" still depends upon us for its survival. British economic support provides the lifeblood of "apartheid" — over 60% of world investment in South Africa comes from Britain and we are a major trading partner for the regime.

Trade unionists, church leaders and other representatives of the black community in South Africa have called for an end to this support. Specific appeals have been made to Britain. The United Nations has supported the call. But the support continues.

---

ON SUNDAY 14TH MARCH a major national demonstration will take place in London to demand an end to support for South Africa — and the imposition of sanctions on the regime. It must be a convincing demonstration of the opposition to apartheid that exists in Britain. Give it your support. Join the coach from Sheffield.
