Dear friends

We enclose leaflets and posters to inform you of the demonstration against racist immigration laws in Handsworth on Saturday March 15.

While any campaign demanding the right of a black person to live in this country free from harassment deserves the full support of all black and anti-racist people, Baba Bakhtaura's case is particularly important in that the House of Lords' decision will mark a distinct change in the law. They will be deciding whether a person's loss to his/her community is a factor which the Home Office must consider in deciding to deport them.

We are confident that you will throw your full weight behind the campaign, and will publicise the demonstration with leaflets and posters. If you need any more please contact the campaign.

Yours faithfully

B Bassi
