# GEORGINA BUCKMAN HAS ...TWO BRITISH-BORN SONS ...A BRITISH HOME

## HELP HER TO FIGHT AGAINST HER DEPORTATION

# GEORGINA BUCKMAN'S CHILDREN NEED THEIR MOTHER HOME AND SCHOOL

Georgina Buckman comes from Ghana. She came to this country in 1974 as a visitor and did a secretarial course. A member of her family held her passport and she assumed that her visa had been renewed. She lost her right to appeal against the Home Office's decision to send her back because ALL her documents were held against her will.

Mrs. Buckman remained in this country and had two children here. They are boys aged 8 and 7, who have lived here all their lives and attend a local primary school in Tooting - Swaffield School - where one of the boys has special tutorials for children with educational difficulties. If she were deported, Mrs. Buckman would have no option but to leave the boys behind in the permanent care of Wandsworth Council until they were adults... she has no home, job or family to whom she can return in Ghana, and could not subject her children to such insecurity in a country which they do not even know.

IN 1981, MRS. BUCKMAN MARRIED a fellow- Ghanaian in this country, which would normally have secured her the right to stay here. However she was still only given temporary rights because of his nature of work. This marriage ended last year, leaving Mrs. Buckman living with, and supporting, the two children alone.

She has been told to leave the country by the Aliens Registration Office. She has even been given a date... August 20th. So she, with the help of concerned local people, has got to persuade the authorities to relent on compassionate grounds VERY QUICKLY INDEED. PLEASE DO WHAT YOU CAN TO HELP THIS WOMAN KEEP HER FAMILY TOGETHER.

**LET HER STAY**
