

BRADFORD ASIAN YOUTH MOVEMENT ANNUALREPORT 1986

In the past year we have seen several somewhat unexpected happenings ranging from National Media attention to the expulsion of our Chairperson. disappointed and regretfully but with enthusiasm and hope I write this report.

Over the last 12 months or so we have achieved and done very little comparative to our potential and capabilities. The underlying factors being :

(1) the previous Chairs' refusal to work as a co-operative with the rest of the E.C., his somewhat irrational and self-destructive choice of decisions and his self-centred attitude towards the functioning of our Organisation.

(2) the General Secretary not co-ordinating the Organisation and membership as effectively as necessary, having limited experience and realising too late the state of chaos within himself and the Organisation.

(3) the general lack of discipline throughout the Organisation.

Although I am with what "has and has not" occurred over the last year, I am more immediately concerned with what "does and does not occur" over the next year to come.

Previously on several occasions, usually when something(s) go wrong, we have examined ourselves and the situation rather haphazardly and incompletely and said "A,B,C" must be done but "A,B,C" seem still to wait to be done. We must now seriously, honestly and critically examine ourselves so that once again we can begin to do the "business"

We can not afford to leave this task any longer, I believe a now or never situation is now inevitable. Comrades we need to act now. Please remember as individuals we are here to work collectively and contribute to the Organisation of which not enough has materialised over the last year. At this stage I would urge you to ask yourself, honestly, "Do you seriously want to be part of our Organisation and willing to play the part necessary. If not I sincerely suggest you ought to leave our Organisation or perhaps consider Associate membership.
