## Duke of Edinburgh

On April 7th Asian youths were subjected to racist attacks by white racists thugs drinking in the Duke of Edinburgh pub. Seven Asian youths were eventually arrested for defending themselves against these attacks and now face affray charges.

In August an Asian man was viciously attacked by white racists drinking outside the pub and suffered serious injury. Other black people in the past have been attacked by racists drinking in the pub - Asian women have had beer thrown at them and been spat at and children and families assaulted.

On September 16th white racists who had been drinking in the pub again attacked Asian youths across the road. Some Asians were seriously beaten up

## Queen's

For the last ten months black people have been continuously racially harassed by the management of this pub.

A number of Black people have been banned from drinking in this pub, they have also been verbally racially abused, dogs have been let loose onto them and the police have been called to harass black people.

Over the last six months Black people have organised a boycott of the Queen's pub. However the banning on a large number of black people has still not been lifted and the racist manager still not sacked.

We demand the immediate sacking of the racist manager and the lifting of all bans on black people.

THESE ATTACKS AND HARASSMENT CANNOT BE TOLERATED ANYMORE. BLACK PEOPLE IN NEWHAM SHOULD BE FREE TO WALK IN PEACE WHEREVER THEY WISH TO IN THE BOROUGH.
