# HANIF GRAHAM

Hanif Graham, a 21 year old West Indian, was sentenced to life imprisonment on 14th September 1984 for a murder he did not commit. All evidence against him was circumstantial.

Under pressure from the Police he made a confession. He was interrogated naked, was not allowed to eat for 3 days, and was told that his family would suffer if he did not confess.

Hanif Graham was used as a scape-goat by the Police who can say that they have solved this crime, and the whole case has been used by the Police to intimidate Hitchin's BLACK Community. Almost every West Indian home in Hitchin was under Police investigation, and 11 West Indian youths were sentenced on affray charges, despite the fact that youths of all nationalities were involved in the incident.

Hanif's trial was estimated to last between 8 days and 2 weeks, yet it was over in approximately 3 days.

We, the Hanif Graham Defence Committee, demand that Hanif is either released or given a re-trial as he is innocent.
