Dear Friends,

It is a matter of great urgency that the Home Secretary receives thousands of individual letters supporting the right of Rosmina and her husband Mohammad Azhar to live united as a family with their children in the U.K.

Please write immediately and include any of these reasons why you think they should stay. Most importantly point out that as a result of the verdict of the European court of Human rights, Azhar should now have the right to stay in this country. Following this verdict, the government has now agreed that all women settled here, whether or not they are British citizens, have the right to have their husbands here with them. Before this, Rosmina was told that her husband could not stay because she was not a British citizen. Now, British citizenship no longer matters. The government must honour this change in the rules.

1, Rosmina has already had one marriage ended by the tragic death of her husband why should the Home office have the right to break up her second chance of happiness?

2, As Mohammad has no parents he would have no one to return to in Pakistan.

3, Rosmina daughter (Farzana) by her first marriage has been legally adopted by Azhar.

4, Since their marriage they have another child, Amreen so why should these two children be made fatherless.

Please remember that it is a personal letter from you and do not just copy the reasons word for word from this list.

Please put this Home office number on your letter A 336994 and address it to,

The Home Secretary,
C/O G. Kaufman M.P.
House of Commons
Westminster
London.

Thank you

Yours Sincerely

K. Boxer.
